

PlanetPress® Virtual Stationery

OL™ Software

Description

A modern alternative to pre-printed stationery allowing you to replace your pre-printed paper supply in minutes with little or no change to the print process.

Any user will be able to print on any printer, using PDF files instead of pre-printed stationery; so no manual intervention and no paper tray configuration.

Typical applications

- ✓ Printed customer communications
- ✓ Invoices
- ✓ Delivery notes
- ✓ Statements

Typical industries

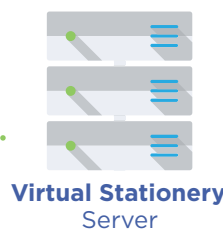

- ✓ Legal
- ✓ Accounting
- ✓ Debt recovery services
- ✓ Insurance
- ✓ Public sector
- ✓ Retail
- ✓ Trading

Typical workflow

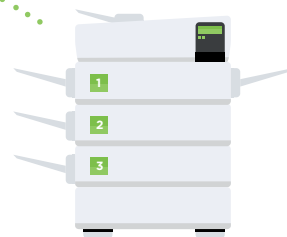

Send Content

Send documents to Virtual Stationery printer queue from any Windows® application.

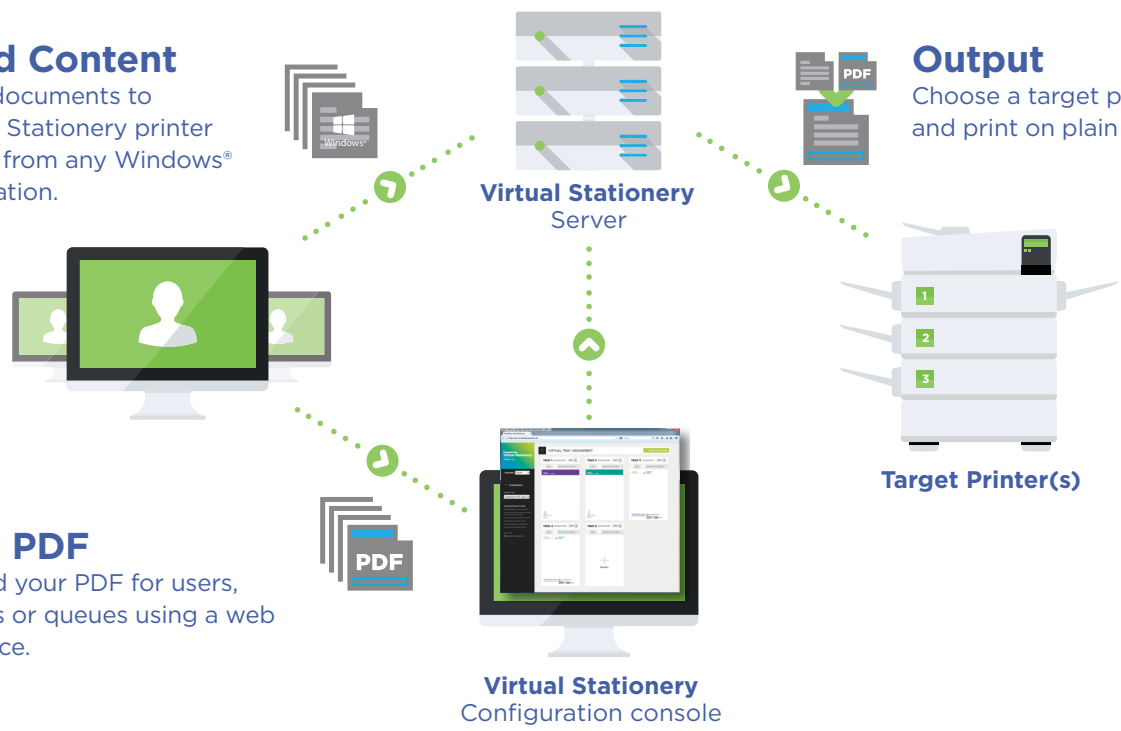

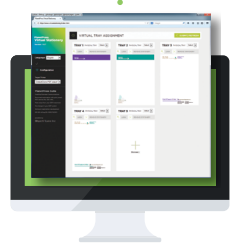

Output

Choose a target printer and print on plain paper.

Add PDF

Upload your PDF for users, groups or queues using a web interface.

PlanetPress Virtual Stationery

Typical problems

- ✓ **Using pre-printed paper is expensive**
 - Must be inventoried and managed
 - Stock cannot be edited
 - Quickly becomes obsolete
 - Creates waste
 - Printer trays often have to be reconfigured
