

TROY MICR Toner

Precision-Matched Security Products

Premium Quality MICR Supplies

MICR Toner Cartridges

- TROY manufactures and supplies the highest quality desktop MICR toner worldwide.
- Precision-matched for each printer model, TROY high quality toner cartridges are backed by our Quality Guarantee.
- TROY MICR Toner Cartridges are recommended for use with TROY and HP LaserJet Printers and will not void the manufacturer's warranty.
- TROY's MICR technology meets or exceeds APACS, ANSI, ABA, CBA standards.
- TROY verifies bank reader sorter reliability throughout the entire life of all cartridges.
- TROY MICR Toner Secure has been enhanced with a patented security agent to help prevent fraudulent alteration of checks.*
- TROY MICR Toner Secure, the new generation of TROY MICR Toner, helps protect sensitive areas such as the payee name and payee amount.

TROY Cheque Paper

- TROY check paper helps reduce the risk of check fraud for your corporation.
- Each piece of check paper contains multiple layers of security including but not limited to: copy-void safety, simulated watermark, micro-print lines, chemical alteration protection, padlock, and MP icons.
- Premium Quality check paper - specified and quality approved by TROY.

* Available for most TROY and HP LaserJet Printers

Quality Results with Precision MICR Printing Solutions

Consistent MICR quality can only be maintained over time by matching all four of the key MICR variables-printer, fonts, toner, and check paper. TROY is the only MICR toner manufacturer who develops and manufactures toner to meet Global Standards, utilizing both E13B and CMC7 fonts, with the appropriate magnetic signal strength. All of TROY's printing solutions are precision-matched to produce the highest bank reader-sorter processing success rate in the industry. So when you select TROY's precision-matched Security Printing Solutions, you'll be getting the highest level of MICR output available.

Patented TROY Solutions add Security to your Document Printing

TROY Laser Indelible Solution™ consists of a specially coated paper combined with either TROY MICR Toner Secure™ or TROY Security Toner to create a solution which helps prevent mechanical and chemical alteration. The combination of toner and paper work together allowing the printed text to permeate through the paper in specified areas.

This indelible image provides the ability to read the information on the front and back of the document, allowing recipients to verify that a document has not been altered. TROY's patented anti-fraud technology forces a bright red stain to appear if chemical alteration of a document is attempted. Available in two variations TROY Security and TROY MICR Toner Secure™ allows users to protect the words and graphics printed.

For MICR applications and other financial documents a new generation of TROY MICR Toner, TROY MICR Toner Secure™, is becoming the new benchmark in anti-fraud check printing. For standard applications (i.e. certificates, medical records, legal documents, tickets, etc.) TROY Security Toner adds a cost-effective new layer of security to your sensitive documents.
